Cover photo: Two hundred and three arachnologists gathered at the 21st International Congress of Arachnology in Canterbury, New Zealand, 10-15 February 2019. The Congress logo features *Periegops suterii* and includes koru in the design. The koru is an important symbol in Māori art; it represents the unfurled shoot of a fern and symbolises new life, growth, strength and peace. *Periegops suterii* (photo by Bryce McQuillan) is endemic to the Banks Peninsula and Christchurch, and is one of two New Zealand species in the Australasian family Periegopidae. Feature articles on pages 103-131 were presented at the Congress.
