Cover photo: Loxosceles reclusa Gertsch & Mulaik, 1940 (Araneae: Sicariidae) and *Dinothrombium magnificum* (LeConte, 1852) (Acari: Trombidiiidae). This photo of *L. reclusa* was the first color image used on a cover of the Journal of Arachnology (Issue 36(1), 2008). From 1987 to the present a total of 18 papers focusing on *Loxosceles* have appeared in the JoA. A short bibliography of these papers can be found on the American Arachnological Society website along with articles published in Issue 50(2). The photo of the giant velvet mite, *D. magnificum* (see page 175), echoes an earlier JoA cover image—a black and white drawing of *Dinothrombium* sp. by Michael W. Nickell (1983, Volume 11). Photographers are Rick Vetter (*Loxosceles*) and Jillian Cowles (*Dinothrombium*).
